Junior Summer Institute

The PPIA Junior Summer Institute (JSI) Fellowship Program is a rigorous academic graduate-level preparation program for undergraduate juniors committed to public service careers. The program was started to address the lack of diversity across the spectrum of professional public service, including government, nonprofits, public policy institutions, and international organizations. The purpose of the JSI Fellowship is to prepare students to obtain a Master's or joint degree, in public policy, public administration, international affairs, or a related field. As a part of this program, students have the opportunity to go to one of six universities for the summer.

- Carnegie Mellon University – Heinz College of Information Systems and Public Policy
- Princeton University – School of Public and International Affairs
- University of California, Berkeley – Richard and Rhoda Goldman School of Public Policy
- University of Michigan – Gerald R. Ford School of Public Policy
- University of Minnesota – Hubert H. Humphrey School of Public Affairs
- University of Washington – Daniel J. Evans School of Public Policy and Governance

This internship is fully funded and can assist students with obtaining funding for graduate school.

William & Mary's Global Innovation Challenge (WMGIC) will partner with the Whole of Government Center of Excellence and NATO Allied Command Transformation (ACT) to host the first Cyber Security Challenge.

Student teams will receive a detailed case study prior to the start of the challenge. William & Mary and NATO ACT will present a scenario based on current global threats and challenges that will include background information, such as details on tactics used by key nations and proxy groups.

During the Challenge and over the course of six hours, teams will work with mentors to design a recommended plan of action for NATO based on the case study, research question, and task. Each plan of action will consider NATO's existing capacity and consider what actions NATO should implement within the next 12 months. Panels of expert judges will evaluate the proposals and select five winners. The winners will be announced at the conclusion of the

This Challenge is open to undergraduate students in universities nationwide and internationally from NATO Member Nations. The entire event is conducted in English. Each team will be comprised of three to five students. All levels of experience, and all majors are welcome. A total of \$2,500 in cash prizes will be awarded.
