## Clean Cities University Workforce Development Program Summer 2022

The Clean Cities University Workforce Development Program is an initiative of Clean Cities, a government-industry partnership sponsored by the U.S. Department of Energy's Vehicle Technologies Program. Clean Cities strives to reduce petroleum consumption in the transportation sector in nearly 100 communities across the country. Since the creation of the CCUWDP in 2010, Clean Cities has hosted more than 500 interns in more than 75 Coalitions.

The Clean Cities internship will give students studying communications, public relations, business, marketing, engineering or environmental sciences, the opportunity to grow public awareness and expand the markets of advanced vehicle technologies, alternative fuels, and practices that reduce the consumption of petroleum. Students have participated in research, outreach activities, public education, K-12 outreach, fleet events, and a vast array of transportation-related environmental projects.

# Microsoft Cybersecurity Scholarship Program

The Last Mile Education Fund and Microsoft are working together to address the diversity and talent shortages in the cybersecurity workforce by investing in students like you.

The Microsoft Cybersecurity Scholarship Program supports community college degree and industry certificate completion through financial assistance (up to \$500) and subsidies for cybersecurity certification exam costs (up to \$375). Financial assistance is intended to cover short-term basic needs, such as food, rent, health-related, transportation/car issues, and/or a laptop/device.

## Eligibility:

- Residents of the United States
  - Students currently enrolled in a cybersecurity-related program at a two-year institution in the United States, such as a community college or technical school
  - Students who are able to demonstrate financial need by providing Pell Grant eligibility, financial aid award letters, or other evidence of need
- All students with financial need are eligible to apply. Students from groups who are underrepresented in cybersecurity are especially encouraged to apply, including those who identify as women, non-binary, and/or Black/LatinX/Indigenous, veterans, and/or have a disability.
