

SELF ASSESSMENTS

FINDING YOUR FIT

You are drawn to work within the field of social work, but do you know where your innate skills and talents align with the field? As you engage with the coursework and field internships offered through GSSW, it is critical for your career development plan to assess how your skills and talents fit with various roles, where you may need additional training or development and how that all fits with your dreams and vision for working in the field. This all starts with YOU!

The University of Denver offers discounts on a few personality & strengths inventory assessments. Contact your Career Development Advisor for more information.

PERSONALITY ASSESSMENTS

There are a few personality assessments that students at the University of Denver can access for a reduced rate! If you have an interest in taking any of these surveys, contact your Career Development Advisor!

MBTI & STRONG INTEREST INVENTORY

The Strong Interest Inventory® assessment provides robust insight into a person's interests, so you can help them to consider potential careers, their educational path and the world of work. Built on psychologist John Holland's theory, it's backed by more than 80 years of research into how people of similar interests are employed, and what motivates individuals in the workplace. It delivers effective and powerful results that contribute to your students' success.

We offer this assessment for \$20.

CLIFTON STRENGTHS

The Clifton StrengthsFinder assessment helps identify the areas where you (or team if being used in that context) have the greatest potential for building strength. It measures recurring patterns of thought, feeling, and behavior.

We offer this assessment for \$11.99
