

New Materialism discussion group

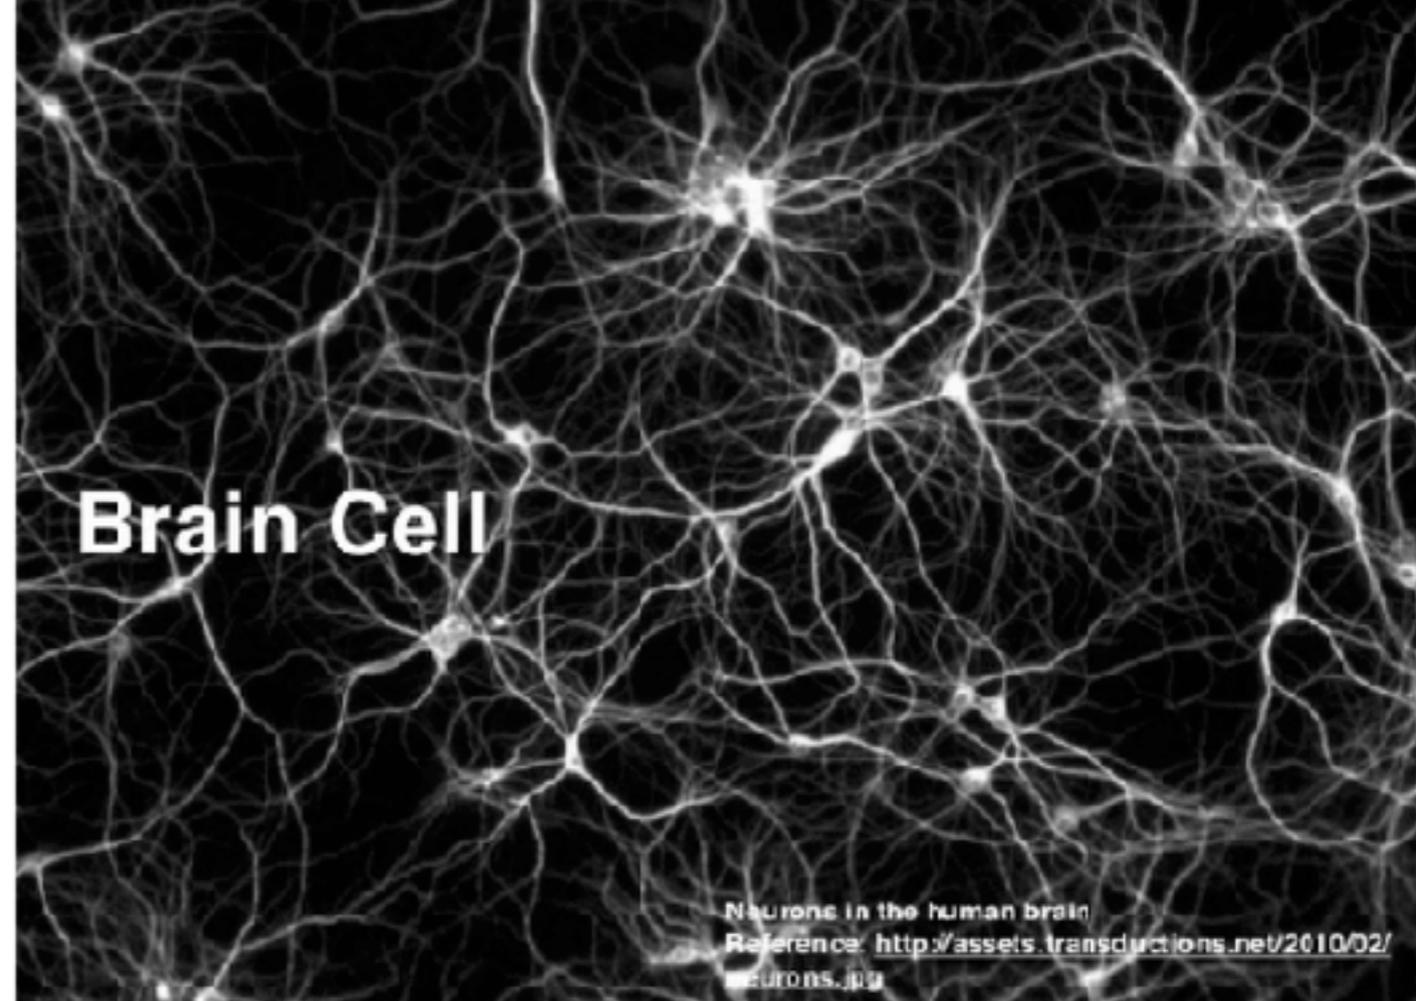

Meetings are on Feb. 7, March 7,
and April 4 @ 12-1:30pm in Sturm Hall 175

What does it mean to consider
language, sociality, and politics
from a new materialistic perspective?

How are physical processes in nature
related to individual and collective
identity formation?

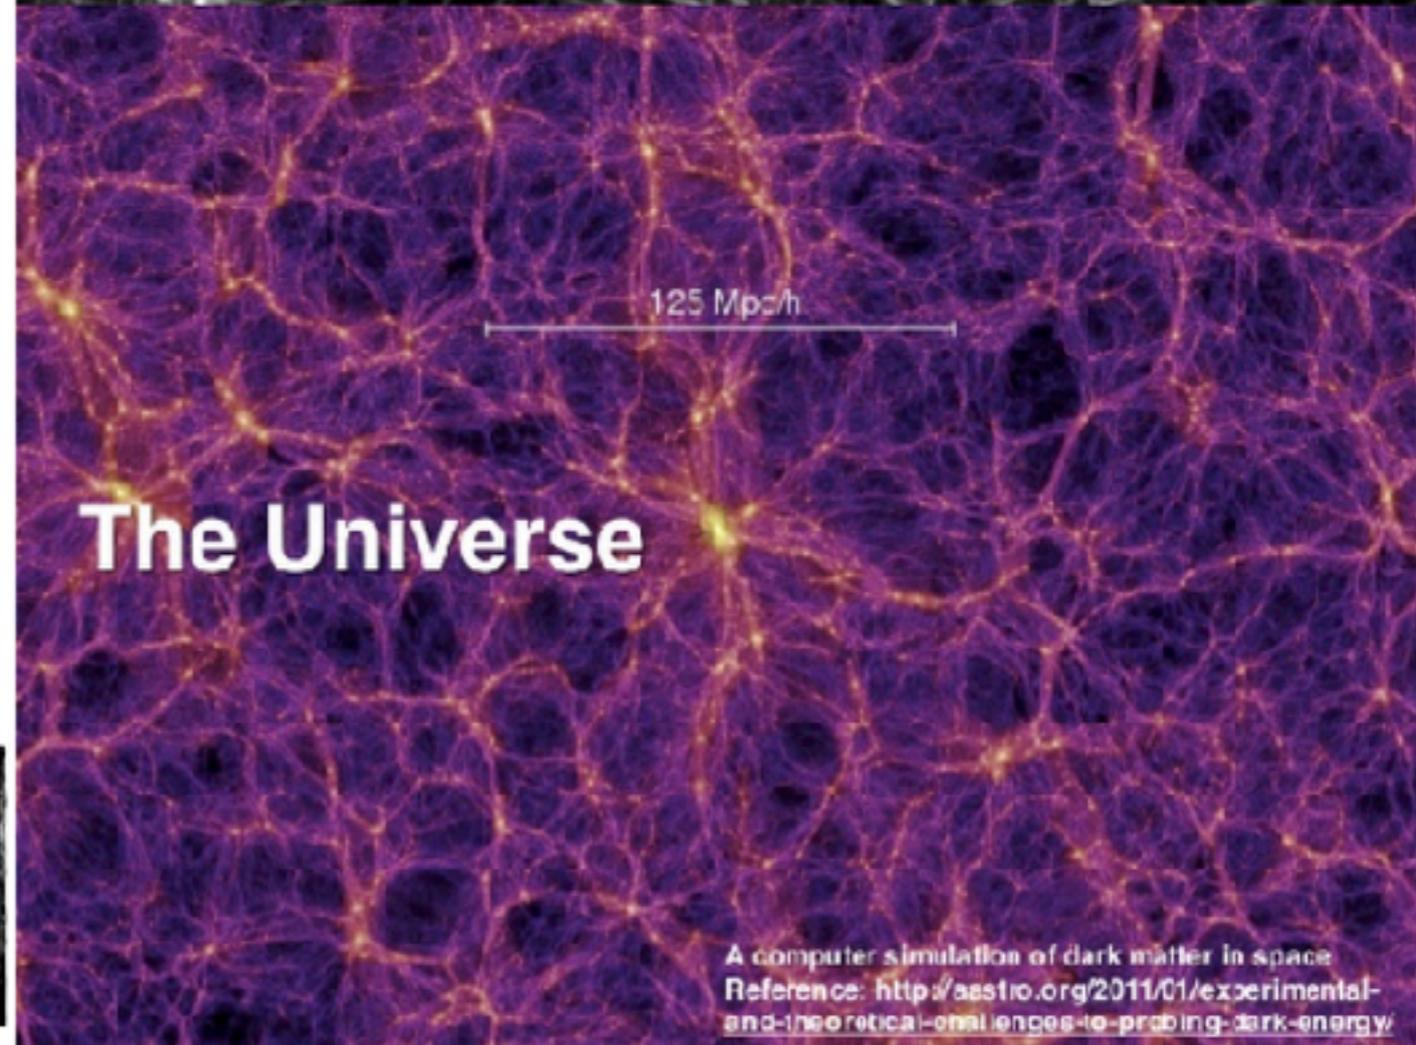

What does quantum physics
have to bear on disciplines such as
politics, psychology,
sociology, and religious studies?

**Join us for an interdisciplinary discussion
about new materialism to
explore why matter, matters!**
