

National Ice Core Laboratory Tour
October 27, 2016

Meet at the National Ice Core Laboratory at the Denver Federal Center at 10:00 AM on April 2, 2015 for the winter tour of the lab. Bring a warm coat, gloves, etc. You will be going into a freezer for a few minutes and its – 40°F (or C) in there!

Our host will be Mr. Richard Nunn. He will give an introduction to ice cores and the climate data that can be obtained therefrom.

Address:

Denver Federal Center
One Denver Federal Center
Building 810, Entrance E-11, MS 975
Denver, CO 80225-0046

Directions:

Take 6th Avenue to the Kipling Avenue south exit. Take Kipling Avenue south to the second light at **Gate 1** of the Denver Federal Center. Turn right into Gate 1. Be prepared to show picture identification at the gate. After clearing security, drive through the gate straight ahead (the road curves somewhat to the left) to the second stop sign. Turn left. As you turn you will see the first in a series of blue and white signs that will guide you around Building 810 to NICL. Follow these signs to Door S25. Parking is unrestricted.

Everyone will need to have some form of ID such as a driver's license.

Non-US citizens must have their green cards or passports.

We can organize carpooling during one of the October classes.

For those who want to get together for lunch after the tour, I recommend the Frijoles Cuban Café. It is a wonderful little Cuban restaurant just west of the Federal Center at 12095 W Alameda Pkwy, Lakewood, CO 80228. Alameda parkway runs along the south side of the Federal Center site.
