The Insights® Discovery System

Each individual is different. Understanding self, others and interactions can be the single most important aspect of personal, team and organizational development. The Insights Discovery System is a comprehensive next generation psychometric system that is focused on the workplace. The Insights Discovery Personal Profile is believed to the most accurate and reliable work style assessment available. The 20+ page Insights Personal Profile is generated from a web-based evaluator that takes only 20-30 minutes to complete.

The profile is divided into sections and includes:

- Personal Style Overview
- Strengths and Possible Weaknesses
- Value to the Team
- Communication Style
- Possible Blind Spots
- Opposite Type
- Suggestions for Development
- How to Manage and Motivate
- Management Style

There are many benefits that hundreds organizations have achieved using the Insights Discovery System including:

- More skillful and productive interactions
- Ability to understand and value differences in others
- Improved commitment and motivation of employees
- Increased team effectiveness
- Development of key leadership competencies
