A Clinical and Experiential Workshop One Hour from Spokane, WA

This four-day clinical and experiential workshop provides the opportunity to discuss **clinical theories**, **case conceptualization**, and **treatment planning** paired with the opportunity to **facilitate equine-assisted sessions** with actual clients.

Clinical theories merged with equine-assisted work in the workshop:
CBT DBT Trauma-Focus + Interpersonal Neurobiology!

Daily schedule:

- 9-11 Theory and Skill Building
- 11-12 Case Presentation and Treatment Conceptualization
- 12-1 Lunch
- 1-2 Think Tank / Treatment Planning
- 2-4 Client Work
- 4-5 Debrief and Progress Notes

The workshop is geared toward mental health professionals, students and other professionals interested in equine-assisted work.

Presenters

E. Rand Gurley, LCSW, Psy.D., in private practice, Sandpoint, ID. Founder and president of Equine Partners in Healing. Specializing in trauma-related disorders with 23 years of clinical experience.

Nina Ekholm Fry, MSSc., CCTP, Director of Equine Programs at the Institute for Human-Animal Connection at University of Denver with 12 years experience in clinical work and EAMH. Focusing on trauma treatment through a lens of interpersonal neurobiology.
