# **Debate Bingo**

As the candidates (only the candidates, not the moderator) use the rhetorical strategies, logical fallacies, or predictable talking points featured below, mark the corresponding boxes until you have five in a row (can be vertical, horizontal, or diagonal).

"Freedom"	"Washington"	"Experience"	<sup>Platitude:</sup> Bipartisanship (In Washington)	"Main Street"
<sup>Platitude:</sup> Unity / End of Divisiveness (As a Nation)	<sup>Evasion:</sup> Reframing the Question	"Mile High"	"General Motors"	Empathy Anecdote: Parents' Humble Beginnings
"Tax Reform"	Use of Anecdotal Evidence: Senior Citizen	free space <b>"America"</b>	<sup>Logical Fallacy:</sup> Post Hoc Ergo Propter Hoc	"Wall Street"
<sup>Evasion:</sup> "No Hypothetical Questions"	"Constitution"	"Heartland"	Logical Fallacy: Slippery Slope	<sup>Platitude:</sup> Personal Responsibility
"Bush"	"Progress"	Use of Anecdotal Evidence: Coloradan	"Bain Capital"	Logical Fallacy: False Analogy

Once you've hit BINGO, be sure to upload a picture of your winning card to Twitter using **#DUDebateBingo** for the chance to win a prize from DU's Writing Program.

## Logical Fallacies:

#### Ad Hominem

Attacking the person making the argument instead of the argument itself. Example: You can't believe anything Rush Limbaugh says because he is addicted to pain medication.

#### **Slippery Slope**

Claiming that a small step will lead to bigger and bigger consequences. Example: If you legalize gay marriage, next thing you know people will be marrying animals.

#### Bandwagon

Claiming something is valuable or true because everyone likes/believes it. Example: The novel Twilight is a best seller; therefore, it must be a good novel.

#### Straw Man

Misrepresenting your opponent's view, then attacking the misrepresentation instead of the real argument. Example: *Geoff: Having children is fulfilling.* 

Geoff's childless friend: Hey, just because I don't have kids doesn't mean I'm a worthless person.

#### False Dichotomy

Reducing a complicated issue to only two choices. Example: America: Love it or leave it

#### False Analogy

Comparing two things that are not necessarily related.

Example: I can't believe this new non-smoking policy at DU. It's like Nazi Germany all over again!

#### Post Hoc Ergo Propter Hoc

Assuming a cause-and-effect relationship for two events just because they are temporally related (the latin translates to "after this, therefore because of this").

Example: Barack Obama was elected president in 2008, and the economy has been terrible since 2008; the President is responsible for the country's economic turmoil.

### **Evasion Tactics:**

#### Reframing the Question

Skewing or rewording the original question in order to address a different matter. Example: What I think you mean by that... or The real question here is...

#### "Not My (or government's) Decision to Make"

Pointing out that a matter is someone else's responsibility to avoid giving your opinion on that matter. Example: Regardless of what I believe, this is an issue for each state/voter to decide.

#### "No Hypothetical Questions"

Refusing to answer hypothetical questions that may reveal your positions or opinions. Example: I can't say how I would vote on a bill like that because one doesn't exist yet.

#### "They Have a Right to Their Opinion"

Using freedom of speech or freedom of belief to avoid having to reveal your own position on a matter. Example: Question: "A member of your party has made a controversial statement. Do you agree with what he said, or are you going to denounce what he said?"

Answer: "Well, he has a right to his opinion and to expressing that opinion."
