

MA Thesis Proposal Form

Guidelines: By the end of the second quarter of the second year in the MA program, students should submit a thesis proposal to the Director of Graduate Studies. The proposal should be a brief description of the project and must be approved and signed by at least two thesis committee members and the Director of Graduate Studies. One copy of the approved and signed form will be placed in the student's file.

Thesis Proposal: 250-words, maximum, attached. The proposal should identify the project's area of research and/or creative work and also define, if possible, the dissertation's topic and specific goals. If any special resources (e.g. travel, new technology, language study) will be needed, those should be noted.
