Subject: Poetics Course: Écrit #4

Hello All,

I am writing to reaffirm what I said today in class about the guidelines for Écrit #4:

* Écrit #4 will be a working draft of approximately half of your research project; the first stage of the work; roughly the equivalent of between 5 and 7 pages of written material.

* If your project involves media, then please include a representative sample of that part of the work in addition to your narrative that engages with the visual work and the research component.

* Écrit #4 is due, as the syllabus notes, at the beginning of class on Tuesday, May 26, which is two weeks from today.

Cheers,
Prof.S
