TRAVEL TIPS:
Useful Career Resources

Making the Most of Alumni & Employer Meet & Greets

The fall brings several career opportunities to network with alumni and organizations with programs such as the Alumni Networking series & the Zoom-in & Learn series. Unfortunately, many students don't have a lot of time to prepare for these events or maximize their time spent. Let's remedy that situation!

Take a Moment to Research. Presenters names are often promoted prior to the event. Look online and know their background. ...it's often not what you know but who you know. This will give you insight on what questions to ask or what connections they could provide!

Know Your Need. There's a reason why the event grabs your attention. What do you want to know? Alumni that come back to campus want to be helpful, but they can't read your mind. Come to the event with questions jotted down so that you don't forget to ask them!

Recognize the opportunity. Every interaction you have with GSSW alumni or community partners is a way to grow your personal network. Take the time to introduce yourself to presenters and connect with them on LinkedIn, thanking them for their insights.

Practice Your Pitch. In any networking situation, there are opportunities to tell your story...your pitch. Think about what makes you individual, memorable, inspired. This way, when an alum asks you who you are and why you're at GSSW, you have a confident, solid response.
