

Mental Health and Trauma

UNIVERSITY of
DENVER

GRADUATE SCHOOL OF SOCIAL WORK
Office of Academic Services

Program Starts Summer 2020 and After

Concentration Coordinator: Brian Gonzales

The Mental Health and Trauma concentration focuses on clinical interventions, advanced theory, and research related to mental health, substance use and trauma. Core topics include the assessment of mental health and substance use, skills in crisis intervention and suicide risk-assessment, policy related to mental health and substance use intervention and key clinical interventions and skills.

Courses include intervention in substance use and mental health interventions from several theoretical perspectives: solution-focused, cognitive behavioral, trauma-informed, existential, interpersonal/psychodynamic and strengths/empowerment. Populations include children, adults, and older adults.

Field education placements are offered in agencies that provide psychotherapy, crisis intervention, case management and other clinical interventions related to mental health, substance use and trauma.

81 total credits of the required courses are needed for Traditional students. 54 total credits of the required courses are needed for Advanced Standing students.
